The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 34-66 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 34 and 63 and those claims depending therefrom recite a method wherein "at least a portion of ... solvents" are removed from the reaction mixture. Subsequently a melt-mixture is formed with a crosslinking agent.

Since it is the examiners understanding that melt-mixtures are devoid of solvent, applicants recitation of the removal of only part of the solvent makes it unclear whether a melt-mixture is intended.

Appropriate clarification is required.

Claims 1-33 are allowed.
